Security organization worksheet

Part 1: Describe your security interests
- Raising security awareness   - Protecting sensitive data   - Cloud security
Part 2: Identify three organizations and include their mission or objectives
Organization 1: ISACA - Dedicated to raising cybersecurity awareness and providing resources for assessing risks associated with user behavior online.   **Organization 2:** CISA - Focuses on protecting sensitive and personal information from cyber threats, including ransomware-caused data breaches.   **Organization 3:** Cloud Security Alliance (CSA) - Aims to promote best practices to ensure a secure cloud computing environment.
Part 3: Write out which organization aligns with your interests and why
Organization 1: : ISACA aligns with my interest in raising security awareness, offering extensive resources and training for cybersecurity professionals.   **Organization 2:** CISA's mission relates to my goal to protect sensitive data, especially in the context of increasing ransomware attacks.   **Organization 3:** CSA is closely related to my interest in cloud security, providing tools and guidance for securing cloud environments.   **Best choice for my professional interests:** The Cloud Security Alliance (CSA) stands out as the optimal choice for advancing my career objectives. It offers an extensive array of resources and fosters a community deeply invested in the progression of cloud security measures. This focus is particularly relevant to my aspirations for professional growth within this critical domain of cybersecurity.
